23. Problem: (use additional Sheets if necessary)
Currently, in the VATC we have beta version of Purify 4.5 installed. Since, the GA version is available, we would like to replace beta version of Purify with GA version of Purify 4.5. GA version of Purify is successfully tested in EDF and PVC

24. Proposed Solution: (use additional sheets if necessary)
(1) Use the CD media (available through COTS librarian Tamita Watkins) to replace Beta version of purify 4.5 in VATC with GA version of Purify 4.5 for IRIX 6.5 under /tools (automount for VATC). Use the attached install instruction provided with the PSR document. Please provide redlines to the install Instruction and give it to Thiru Hasandka and Royal White for PSR document.

25. Alternate Solution: (use additional sheets if necessary)
USe the tar file provided on the lemmings machine /data0/CM_INBOX   cksum dist_purify-4_5-irix6_tar.gz 1132959063 5445103 dist_purify-4_5-irix6_tar.gz   cksum README_QUICK_INSTALL.txt 2539745920 1556 README_QUICK_INSTALL.txt

26. Consequences if Change(s) are not approved: (use additional Sheets if necessary)
Purify for IRIX 6.5 can not be delivered to all sites without replacing beta version with GA version and checkout in VATC

27. Justification for Emergency (If Block 15 is "Emergency"):
IRIX 6.5 transition schedule impact
